CHANCE FOR AMBITIOUS MEN

Scholarships in Business Administration of La Salle University Given Complimentary to Limited Number of Renders.

The committee of the New Year finds more prosperous young business men in the country than any previous twelvemonth has witnessed at its beginning. Ambition is the keynote of many a successful man's rise. The fellow-the youth or the man of business who has just turned thirty-cannot expect to rise to the planacle of success unless he is spurred on by ambition. America is full of examples of men who have climbed up the ladder of success because they were not entisfied with their positions, They would not stand still, and they moved on and on until they recently reached a place from which they could look down upon the rest of thei rfellows and declare that those men were not ambitious, or if ambitious did not go the right way to success.

Many an ambitious man of the bustness world fails to achieve success because he does not go about the attain ment of the end in that manner which leads toward the top. The ambitious man of a few years ago did not have the guides and post of warning that the young of 1913 is presented with. The Bee Interested.

Inflation of the Stomach from Undi-gested Food Quickly Relieved by a Stuart's Dyspepsia Tablet.

When you take food into a stomach that is tired and over-taxed the gastric juices do not form fast enough to digest it properly. So the food becomes sour and at once begins to throw off gasses. Your stomach becomes inflated just as surely as if you attached a toy balloon to a gas jet. Then the gases and foul odors issue forth and pollute your breath making you an object of nausea to your friends. Your tongue quickly becomes coated and you can taste the Toulness that is within you.
